Employment Policy, U.S. Department of Labor**

Preface

The Job Accommodation Network (JAN) is funded by a contract with the Office of Disability Employment Policy, U.S. Department of Labor. JAN makes documents available with the understanding that the information be used solely for educational purposes. The information is not intended to be legal or medical advice. If legal or medical advice is needed, appropriate legal or medical services should be contacted.

JAN does not endorse or recommend any products or services mentioned in this publication. Although every effort is made to update resources, JAN encourages contacting product manufacturers/vendors and service providers directly to ensure that they meet the intended purposes. This guarantees that the most up-to-date information is obtained.

The following document is not copyrighted and reproduction is encouraged. Section 105 of the Copyright Law provides that no copyright protection is available for works created by the U.S. Government. Therefore, all works created by JAN fall under this provision. While individuals may use such work with impunity, individuals may not claim copyright in the original government work, only in the original material added. Individuals may access the full text of the law from the U.S. Copyright Office <https://www.loc.gov/copyright>. Please note that specific information cited by JAN may be copyrighted from other sources. Citing secondary sources from a JAN publication may violate another organization's or individual's copyright. Permission must be obtained from these sources on a case-by-case basis. When using JAN materials, JAN asks that the materials not be reproduced for profit, that the tone and substance of the information are not altered, and that proper credit is given to JAN as the source of the information. For further information regarding this or any other document provided by JAN, please contact JAN.

Updated 01/24/2019.

JAN'S Accommodation and Compliance Series

Introduction

JAN's Accommodation and Compliance Series is designed to help employers determine effective accommodations and comply with Title I of the Americans with Disabilities Act (ADA). Each publication in the series addresses a specific medical condition and provides information about the condition, ADA information, accommodation ideas, and resources for additional information.

The Accommodation and Compliance Series is a starting point in the accommodation process and may not address every situation. Accommodations should be made on a case by case basis, considering each employee's individual limitations and accommodation needs. Employers are encouraged to contact JAN to discuss specific situations in more detail.

For information on assistive technology and other accommodation ideas, visit JAN's Searchable Online Accommodation Resource (SOAR) at <https://askjan.org/soar>.

Information about Chronic Fatigue Syndrome

In order to receive a diagnosis of CFS, a patient must satisfy two criteria. First, an individual must have severe chronic fatigue of six months or longer duration with other known medical conditions excluded by clinical diagnosis. Second, an individual must concurrently have four or more of the following symptoms: substantial impairment in short-term memory or concentration; sore throat; tender lymph nodes; muscle pain; multi-joint pain without swelling or redness; headaches of a new type, pattern, or severity; erratic sleep; and malaise lasting more than 24 hours.

In addition to the primary defining symptoms of CFS, some CFS patients have reported a number of other symptoms. They include gastrointestinal, pain, nausea, photosensitivity, respiratory and skin issues, and weight changes. A majority of CFS patients also report mild to moderate symptoms of anxiety or depression. The treatment of CFS focuses on symptom management. Chronic fatigue syndrome has also been called myalgic encephalomyelitis (ME) and post exertional fatigue syndrome.

Chronic Fatigue Syndrome and the Americans with Disabilities Act

The ADA does not contain a list of medical conditions that constitute disabilities. Instead, the ADA has a general definition of disability that each person must meet. A person has a disability if he/she has a physical or mental impairment that substantially limits one or more major life activities, a record of such an impairment, or is regarded as having an impairment. For more information about how to determine whether a person

has a disability under the ADA, see [How to Determine Whether a Person Has a Disability under the Americans with Disabilities Act Amendments Act \(ADAAA\)](#).

Accommodating Employees with Chronic Fatigue Syndrome

People with CFS may develop some of the limitations discussed below, but seldom develop all of them. Also, the degree of limitation will vary among individuals. Be aware that not all people with arthritis will need accommodations to perform their jobs and many others may only need a few accommodations. The following is only a sample of the possibilities available. Numerous other accommodation solutions may exist.

Questions to Consider:

1. What limitations is the employee experiencing?
2. How do these limitations affect the employee and the employee's job performance?
3. What specific job tasks are problematic as a result of these limitations?
4. What accommodations are available to reduce or eliminate these problems? Are all possible resources being used to determine possible accommodations?
5. Has the employee been consulted regarding possible accommodations?
6. Once accommodations are in place, would it be useful to meet with the employee to evaluate the effectiveness of the accommodations and to determine whether additional accommodations are needed?
7. Do supervisory personnel and employees need training?

Accommodation Ideas:

Limitations

Decreased Stamina/Fatigue

- Aide/Assistant/Attendant
- Anti-fatigue Matting
- Elevating Wheelchairs
- Ergonomic Assessments
- Ergonomic Equipment
- Flexible Schedule
- Job Restructuring

- Periodic Rest Breaks
- Scooters
- Stand-lean Stools
- Telework, Work from Home, Working Remotely
- Walkers
- Wearable Anti-fatigue Matting
- Wheelchairs
- Worksite Redesign / Modified Workspace

Memory Loss

- Additional Training Time / Training Refreshers
- Apps for Memory
- Electronic Organizers
- Memory Software
- Recorded Directives, Messages, Materials
- Reminders
- Support Person
- Verbal Cues
- Wall Calendars and Planners
- Written Instructions

Organizing/Planning/Prioritizing

- Applications (apps)
- Apps for Organization/ Time Management
- Color-coded Manuals, Outlines, and Maps
- Electronic Organizers
- Ergonomic Equipment
- Job Coaches
- Job Restructuring
- On-site Mentoring
- Organization Software
- Professional Organizers

- Reminders
- Supervisory Methods
- Task Identification
- Task Separation
- Timers and Watches
- Wall Calendars and Planners
- Written Instructions

Photosensitivity

- Alternative Lighting
- Anti-Glare Filters for Fluorescent Lights
- Cubicle Doors, Shields, and Shades
- Fluorescent Light Tube Covers
- Full Spectrum or Natural Lighting Products
- LED Light Filters
- Lighting Gel Filters
- Vehicle Window Tinting and Shades

Sleeping/Stay Awake

- Apps for Sleep/ Fatigue
- Flexible Schedule
- Modified Break Schedule
- Sleep Alerting Devices

Stress Intolerance

- Apps for Anxiety and Stress
- Behavior Modification Techniques
- Counseling/Therapy
- Environmental Sound Machines / Tinnitus Maskers / White Noise Machines
- Flexible Schedule
- Job Restructuring
- Marginal Functions
- Modified Break Schedule

- Supervisory Methods
- Support Animal
- Support Person

Work-Related Functions

Light

- Alternative Lighting
- Anti-Glare Filters for Fluorescent Lights
- Flexible Schedule
- Fluorescent Light Tube Covers
- Full Spectrum or Natural Lighting Products
- LED Light Filters
- LED Lighting
- Lighting Gel Filters
- Modified Lighting
- Non-Fluorescent Lighting
- Personal Visors
- Telework, Work from Home, Working Remotely
- Simulated Skylights and Windows
- Transparent Window Shades
- Vehicle Window Tinting and Shades

Stress

- Apps for Anxiety and Stress
- Behavior Modification Techniques
- Counseling/Therapy
- Flexible Schedule
- Job Restructuring
- Marginal Functions
- Modified Break Schedule
- Monitor Mirrors
- On-site Mentoring

- Service Animal
- Simulated Skylights and Windows
- Supervisory Methods
- Support Animal
- Support Person
- Telework, Work from Home, Working Remotely
- Uninterrupted Work Time

Temperature

- Air Deflectors
- Cold Resistant Gloves
- Cooling Clothing
- Fans
- Flexible Schedule
- Foot Warmers
- Heat Resistant Gloves
- Heated Clothing
- Heated Ergonomic and Computer Products
- Heated Gloves
- Telework, Work from Home, Working Remotely
- Modified Break Schedule
- Vent Covers
- Workstation Space Heaters

Situations and Solutions:

A customer service representative with chronic fatigue syndrome and memory and concentration problems had difficulty answering some customer questions.

She was accommodated with written materials to help her remember information and a private office to reduce distractions.

A teacher with chronic fatigue syndrome had difficulty meeting the physical demands of her job and was exhausted by early afternoon.

She was provided with a teacher's aid, her off-hour was moved to the afternoon, and she was excused from afternoon recess duty.

A student with chronic fatigue syndrome had difficulty keeping up with class notes.

He was accommodated with a laptop computer to use in class.

An employee with sickle cell anemia has disclosed that they are experiencing limitations due to chronic fatigue.

The individual has noticed that the quality of her work suffers near the end of their shift and is requesting accommodations to help with this. The employer agrees to modify the individual's schedule so that she has a 1-2 hour break in the middle of the shift as an accommodation so that the individual can rest before resuming the work shift. To accomplish this, the employer extends the individual's shift end-time so the individual works a normal amount of hours despite this long break.

A flight attendant with chronic fatigue syndrome was missing a lot of work due to fatigue.

Her doctor recommended that she reduce the amount of traveling she was doing. She wanted to continue working full-time so requested reassignment to an office job.

A therapist with chronic fatigue had difficulty maintaining the stamina needed to work full time

Part of the problem was that she had a difficult commute to and from work every day. She asked her employer if she could telework two times a week and do her paperwork on those days. Her employer had never had an employee telework before so decided to allow it on a trial basis to determine whether it would work. After trying it for a month, the employer agreed to allow the employee to continue teleworking.

A school psychologist with chronic fatigue syndrome was having difficulty working at full production.

She was allowed to schedule appointments in the morning, which gave her uninterrupted time in the afternoon to complete paperwork. She was also allowed to schedule several short rest breaks throughout the day and use of sick leave as needed.

An operating-room nurse with chronic fatigue syndrome had difficulty rotating schedules.

She was accommodated with a permanent day schedule.

A design engineer with chronic fatigue syndrome had difficulty working full-time.

He was allowed to work-at-home three days a week.

A daycare director with chronic fatigue syndrome had difficulty getting to work on time and maintaining a full-time schedule.

She was allowed a later start time and a part-time schedule.

A social worker with chronic fatigue syndrome experienced headaches and photosensitivity.

Accommodations included changing the lighting in her workstation from fluorescent lighting to task lighting, adding a glare guard to her computer monitor, providing window blinds, and implementing other workstation changes to enhance ergonomics.

Products

There are numerous products that can be used to accommodate people with limitations. JAN's Searchable Online Accommodation Resource at <https://askjan.org/soar> is designed to let users explore various accommodation options. Many product vendor lists are accessible through this system; however, JAN provides these lists and many more that are not available on the Web site upon request. Contact JAN directly if you have specific accommodation situations, are looking for products, need vendor information, or are seeking a referral.
